## **Veteran Policy Advisor Daniel Dundas II Selected to Serve as President of the Michigan Electric and Gas Association**

The Board of Directors of the Michigan Electric and Gas Association (MEGA) announced today that Daniel Dundas II has been selected as President of the organization starting on January 5, 2021. In that capacity, Dan will serve as chief executive, responsible for providing strategic direction to the Board on regulatory, legal, and legislative matters and management of all financial and administrative affairs.

Most recently, Dan was Director of the Michigan Senate Majority Policy Office where he provided the direction and overall vision for the office, supervising a team of 13. Dan has worked for the Michigan legislature in multiple capacities for over 17 years, including major energy legislation that was crafted during his tenure. Dan brings a wealth of experience in policy analysis and development.

“Dan is exactly the kind of leader we were looking for as President.” said MEGA Board Chair Mike O’Brien. “He is well respected in Lansing and will bring a depth of knowledge on successfully navigating complicated policy issues.”

Dan holds a law degree from Western Michigan University Thomas M. Cooley Law School and a Bachelor of Arts in Political Science from Michigan State University. He is also a member of the State Bar of Michigan.

“I’m thrilled to be chosen to lead such an influential group in energy policy in Michigan.” Dan said. “I’m looking forward to working with the MEGA members and other industry stakeholders in this new capacity.”

The Michigan Electric and Gas Association is a trade association for investor-owned electric and gas utilities serving fewer than 500,000 customers in the state and works with the Michigan legislature, federal and state regulatory agencies and the entire Michigan energy industry to assure safe, reliable and affordable electric and gas utility service.
